****Client:**** Sarah Thompson

****Date:**** April 22, 2024

****Property:**** 15 Industrial Lane, Westbrook VIC 3461

****Prepared by:**** TESI Advisory

****Service Type:**** Non-Representational Decision Analysis

1. Client Objective (As Understood)

You are considering purchasing a 2.5-acre former automotive repair workshop at 15 Industrial Lane, Westbrook

Your stated priorities are:

- Redevelopment for residential use
- Medium-term investment horizon
- Maximize return on capital

Your risk tolerance is moderate-high as an experienced developer, but you want to understand environmental e

2. Information Snapshot

Known Facts

- Property is 2.5 acres, zoned Mixed Use (MUZ)
- Residential development is permitted under zoning
- Title is clear
- Former use was automotive repair workshop
- Vendor has disclosed "oil staining on concrete slab"
- 5 days remain in 14-day due diligence period

Key Uncertainties / Gaps

- No Phase 1 Environmental Site Assessment completed
- No Phase 2 ESA (soil/groundwater sampling) completed
- No EPA records search completed
- Contamination type, extent, and depth unknown
- Remediation requirements and costs unknown
- Whether EPA audit condition will apply unknown

****These gaps are material and prevent informed decision-making.****

3. TRUE Assessment Summary

Critical environmental information is not available. The property's former use as an automotive workshop create

****TRUE Status: FAIL ? Unbounded uncertainty on material facts****

4. NORTH Assessment Summary

Long-term development potential cannot be evaluated. Regulatory pathway depends on contamination status. T

****NORTH Status: CANNOT DETERMINE****

5. ALIGNED Assessment Summary

Development feasibility cannot be calculated without contamination data. Client objectives (residential developm

****ALIGNED Status: CANNOT DETERMINE****

6. Decision State

- ☐ Proceed
- ☒ Pause
- ☐ Avoid / Walk Away

7. Missing Information List

Before a decision can be made, the following must be obtained:

1. ****Phase 1 Environmental Site Assessment****

- Desktop review of historical use
- EPA records search
