

TESGI Advisory

Decision clarity before commitment

TESGI Advisory provides paid, non-representational decision analysis for land, property, and development-related decisions.

The purpose is simple: to help you understand whether a decision actually makes sense **before** it becomes irreversible.

What This Service Is

- Clear articulation of risks, constraints, and assumptions
- A written Decision Memo concluding: **Proceed, Pause, or Avoid**
- Calm, pressure-free analysis grounded in publicly available information

What This Service Is Not

- Real estate representation or brokerage services
- Negotiation, transaction support, or coordination
- Guarantees, predictions, or approvals of any kind

How Decisions Are Evaluated

All advisory reviews use a simple three-part framework:

TRUE — Are the facts accurate, verifiable, and clearly bounded?

NORTH — Does the decision make sense over time, given known constraints?

ALIGNED — Do objectives, risks, and structure actually fit together?

What You Receive

- A concise written Decision Memo (PDF)
- Clear identification of risks and uncertainties
- A defensible decision state — including permission to walk away

Important Boundaries

This service does not replace legal, engineering, or professional real estate advice.

You retain full decision-making authority at all times.

Declining to proceed is considered a valid and responsible outcome.

TESGI Advisory

Decision clarity before commitment.
